Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, April 5.—The State Department has been informed by Minister Loomis that he will sail from La Guayana on the Scorpion Sunday. Copies of the brief prepared by the Warner-Quinn company have been received here. The brief is substantially the same as that laid before the State Department by Ex-Senator Hiseck of counsel for the Warner-Quinn syndicate. It was submitted on March 21 and the expectation was that the court will issue the necessary citations to secure the appearance of the New York and Bermuda Company within a few days following.

The manifesto is not yet finished. Promising gold discoveries are reported from the island of Masbate (close to the southern extremity of Luzon). The collier Brutus has arrived here from Guam and reports that the Filipino prisoners there are in excellent health. The investigation into the conspiracy is being pushed and these civil suits implicated therein will soon be tried.

LODI FIREMEN HURT.

Associated Press Dispatches by The Tribune's Special Leased Wire. Lodi, Cal., April 5.—By the explosion of a lamp in the rear of Russell Brothers' saloon at an early hour this morning, the saloon building and barber shop in the rear were destroyed. The Lodi Volunteer Fire Department worked heroically for several hours to confine the flames within the two buildings. Two of the firemen, Frank Clifton and G. W. Lemis, were badly injured and several others were more or less injured. The loss will exceed \$2,500, fully insured.

Europe's Sympathy Is With Venezuela in Case of War.

Associated Press Dispatches by The Tribune's Special Leased Wire. LONDON, April 5.—The Saturday Review, still smarting at the sting of what it calls "America's insolent message," discusses the American-Venezuelan relations and says: "We have little sympathy for the Venezuelan government, but have the deepest sympathy with any attempt to arrest the widespread application of American theory in the United States. It is the legitimate development of European countries, and we have reason to believe it excites the deepest apprehension in our trading circles in Germany. In any case, the theory of the political power than under the present condition of affairs, and we are not aware of any developments with no less American than interest."

KNOX ACCEPTS THE PORTFOLIO.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, April 5.—When the cabinet met at 10 o'clock this morning President McKinley announced to the members that R. C. Knox of Pittsburgh has accepted the Attorney Generalship, which was offered him last week.

RUSSIA MUST ACT.

Associated Press Dispatches by The Tribune's Special Leased Wire. PETERSBURG, April 5.—The Russian government is in a position to know nothing and that is the Manchurian question. The feeling at the other legations is that Russia is bound to do something or lose prestige with the other powers.

MCKINLEY'S STAY IN NEW ORLEANS.

Elaborate Preparations to Entertain the President.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, April 5.—President McKinley took a long walk after breakfast this morning, accompanied by Representative Meyer of Louisiana, who had called to talk with him about his visit at New Orleans upon the occasion of his Western trip. The President is looking forward to the long tour through the West with great pleasure and speaks of it with enthusiasm. General Meyer told the President that the plans for his stay in New Orleans had been practically completed. An elaborate demonstration is being arranged. The city will be decorated appropriately in honor of the visit of the Chief Magistrate.

According to the present schedule, the Presidential party will reach New Orleans at 4:30 p. m., May 1. That evening a banquet will be given in the President's honor. At the banquet the President probably will make a brief speech. On the following day there will be a carriage ride through the city, which will include a stop at the Casino, the old Government building during the Spanish and French regimes. After luncheon the party will be given a sail along the river front. The departure from New Orleans will be made at 6 p. m. May 2.

CHINESE INDEMNITY.

Associated Press Dispatches by The Tribune's Special Leased Wire. SHANGHAI, April 5.—The China Association has cabled to London a protest against the proposal to pay the Chinese indemnity by an increase of the tariff. The Association claims that although such an increase is practicable, it should remain for future settlement, as an increased tariff is calculated to deprive the commercial powers of means of redress for treaty grievances and is also detrimental to the expansion of trade. The association considers that the honest collection of the present native sources of revenue will adequately provide for the payment of the indemnity.

CRISIS IN MANCHURIA AVERTED.

Russia Promises to Withdraw Her Troops.

Our Government Given Definite Assurance By the Czar.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, April 5.—The United States Government has received a communication from the government of Russia of unusual importance. It lays on condition, in China and particularly those relating to Manchuria. The document has created a profound favorable impression, and at the State Department it is looked upon as the most satisfactory development that has occurred for many months in the Eastern situation. Secretaries have received the communication from Count Cassini last night and communicated it to the President. Although the terms of the Russian communication are withheld, it is known that Russia has agreed to withdraw its troops from Manchuria, and as an expression of her disinterested purpose throughout her dealings with China. As to Manchuria, it is stated that the Russian government has agreed to leave that province as an integral part of China due to the safety will permit. But, as a mere statement of Russia's purposes and as an expression of the Emperor's devotion to the principle of peace, assurance of a definite and satisfactory character is now given as to the execution of these purposes. The belief is held in official quarters that the assurances of Russia are so convincing as completely to avert the threatened crisis in Manchuria.

AN OFFICIAL STATEMENT. ST. PETERSBURG, April 5.—The Official Messenger today publishes a report (Continued on Page 2.)

BLEW FACE OFF WITH DYNAMITE.

Ghastly Suicide of a Young Man at North Bloomfield.

Associated Press Dispatches by The Tribune's Special Leased Wire. GRASS VALLEY, Cal., April 5.—Despondent over being out of work, George Trudell of North Bloomfield committed suicide in a tragic manner last night. He went into a wood shed and lying on the floor placed a piece of giant powder in his mouth and ignited it. His face and a portion of his chin was blown off, presenting a ghastly sight. The coroner's jury, which investigated the affair quickly came to the conclusion that it was a case of suicide. No other reason than the fact that he had long been out of work and worried over financial conditions can be assigned. Trudell was 33 years of age and a native of Bloomfield. An aged mother, father, brother and sister survive him.

DIPHTHERIA BREAKS OUT AT NEWARK.

She is being treated by Dr. Allen.

RUSSIA HAS THE WHIP HAND

Will Hold Manchuria Treaty Or No Treaty.

Her Diplomatic Position Is Believed to Be Impregnable.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. PETERSBURG, April 5.—As pointed out in these dispatches, Russia now holds the power for China's refusal to accept the conditions of the evacuation of Manchuria and calmly says she is in no hurry and can await events. The unbiased opinion here is that Russia occupies an impregnable diplomatic position from which nobody can dislodge her. However warlike Japan may feel, Russia is confident that no opportunity will be given her to take the offensive without placing herself in the wrong. As far as can be seen, Japanese efforts have not caused a ripple of excitement here. RUSSIA'S ULTIMATUM. ST. PETERSBURG, April 5.—The Russian government concludes a lengthy statement regarding the Manchurian situation in these words: "While the Russian government maintains its policy of organization in Manchuria to preserve order in the vicinity of the broad frontiers of Russia, and to maintain faithful to its original and repeated political program, it will quietly await the further course of events."

BOLD WORK OF OHIO ROBBERS.

Open Fire on a Farm House and Loot Premises.

Associated Press Dispatches by The Tribune's Special Leased Wire. LITTLE MOUNTAIN, Ohio, April 5.—While the family of John Lemon was entertaining some neighbors last night, three men, supposed to be members of the gang that robbed the Chardon bank Wednesday night, rapped at the door and asked for food. Upon being refused, the strangers drew revolvers and emptied them into the dwelling. The occupants escaped through a door and none were struck. At daybreak Lemon returned, to find his house ransacked and \$50, all the money he had, missing. The country for miles around has been aroused and an armed posse of farmers, with dogs, is searching for the robbers. Little Mountain is four miles north of Chardon.

GOV. ALLEN'S SUCCESSOR.

The Porto Ricans Want Francis H. Wilson Appointed.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, April 5.—That the report that Governor Allen of Porto Rico is to resign upon his arrival in Washington is credited in the island is manifest from the fact that the people of the island are already making representations to the President regarding his successor.

Wenceslao Borda, who is chairman of the Porto Rican commission which recently came to Washington to protest against the Hollenden tax law, has written to the President on behalf of the commission, suggesting Francis H. Wilson, the present Ambassador at Brooklyn, N. Y., as a successor of Governor Allen. In offering Mr. Wilson's name to the President Mr. Borda, who is in New York, says he is obeying instructions supplied to him by the Executive Committee of the Merchants, Planters and Bankers' Association of Porto Rico.

BIG COLLEGE SCANDAL IN KENTUCKY.

Duck Supper for the Belles Results in Shooting Affray.

Associated Press Dispatches by The Tribune's Special Leased Wire. BOWLING GREEN, Ky., April 5.—Five young men belonging to some of the best and wealthiest families of Bowling Green and themselves members of the city's most exclusive social circles, were indicted by the Grand Jury today for participating in the episode at Potter's College Saturday, in which several young women attending the college were also involved. The young men are Roland Fitch, Willis Potter, Pleasant Potter, Floyd M. Nahn and Harry Nahn. It is charged that they placed a ladder to a window of the college and entered the girls from the college and when Prof. Cabell, president of the college, fired upon the men, they returned the fire without wounding him. The young women are named in the indictments. The young men assert that they intended to take the girls to a "duck supper."

JONES' BROTHER SENT THE POISON.

Affidavit Strengthens the Case Against Patrick.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, April 5.—It was announced at the District Attorney's office today that an affidavit had been received from William L. Jones of Texas, brother of Charles F. Jones, saying that in July and August, 1900, he sent bottles of chloroform to his brother, William M. Rice's valet. The affidavit says that Charles F. Jones said he wanted the drug for a friend who wanted to make toothache drops. Assistant District Attorney Osborne declared that he would produce in court the brother from Texas, if necessary, to hold Albert T. Patrick.

ARIZONA'S BIG GOLD MINE SOLD.

Associated Press Dispatches by The Tribune's Special Leased Wire. PHOENIX, Ariz., April 5.—The Congress gold mine, located on the Santa Fe, Prescott and Phoenix Railroad, and operated by the Congress Gold Mining Company has been sold to an Eastern syndicate and the reported purchase price is \$2,000,000. The mine is the greatest producer of Arizona and has a producing capacity of probably \$10,000,000. Some mining men put the purchase price at \$5,000,000, which were the figures suggested when an option was granted on the mines a year ago. The Congress mines have been operated for fifteen years and the workings are now at a depth of 2,000 feet, but it is freely asserted that at twice the depth the ore bodies will be as extensive and rich, if not more so. Prospecting by diamond drills has outlined enormous ore bodies at that depth.

Famous Kentuckian Battles With Officers.

Refuses to Allow the Sheriff to Serve a Writ.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. LOUIS, Mo., April 5.—A special to the Post-Dispatch from Valley View, Ky., says that General Cassius M. Clay today refused to admit to the famous White Hall Mansion Deputy Sheriff Collier and two other deputies who had gone there from Richmond to serve a writ of delivery sent by Mary B. Clay for furniture belonging to her. A scuffle between General Clay and the deputies ensued, during which fifteen shots were fired. It is not known whether any one in the Clay mansion was hurt, as neighbors fear to enter the premises. None of the shots fired at the deputies took effect.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHARDON, Ohio, April 5.—Two men arrested at Williamsport yesterday on the charge of having participated in the robbery of the bank here Wednesday night, have been brought here. One is a heavy set man, and Marshal Connel of Parkersville asserts he recognizes the man as a well known crook. The other one has completely lost his nerve and is expected to make a confession implicating the rest of the gang, who escaped towards Buffalo. Bloodstains on papers recovered near the scene of the robbery indicate that one of the robbers was severely wounded during the fusillade.

CRISIS IN MAN- CHURIA AVERTED

(Continued From Page 1)

View of the negotiations conducted by the allied powers with the Chinese plenipotentiaries at Tien Tsin and Peking and of the negotiations that led to the presentation of the French draft of peace conditions, which consisted of twelve points, but which are not yet concluded.

The Russian government then makes the following statement:

"While anticipating an early settlement of the questions affecting the mutual relations between all the powers and China, the Russian government on its part considered it necessary to concern itself with the establishment of a permanent order of things in the Chinese territories along the borders of which the Russian Asiatic possessions extend for a distance of 8,000 miles (4,200 miles). To this end provisional written conditions for a modus vivendi

were agreed upon first between the Russian military authorities and the Chinese plenipotentiaries at Tien Tsin and Peking.

"With reference to the institution of a local civil administration, subsequently and after careful consideration of all the circumstances, the Russian government drew up the draft of a special agreement with China providing for the gradual evacuation of Manchuria, as well as for the adoption of a provisional measure to assure peace in that territory and to prevent the recurrence of events similar to those of last year. Unfortunately, with the object of stirring up public opinion against Russia, alarmist rumors were circulated in the foreign press regarding the purpose and intentions of the Russian government. Falsified texts of a treaty, establishing a protectorate over Manchuria, were quoted and erroneous reports were disseminated of an alleged agreement between Russia and China. As a matter of fact, this agreement was to serve as a basis for the restoration to China, as contemplated by the Russian government, of the province of Manchuria, which, in consequence of the alarming events of last year, was occupied by Russian troops. In order that the requisite military measures might be taken it was imperative that the question should be settled one way or the other. It was impossible to lay down forthwith by means of a mutual agreement, the conditions of the evacuation of Manchuria. According to the news received, serious hindrances were placed in the way of the conclusion of such an agreement, and in consequence its acceptance by China, which was indispensable for the gradual evacuation of the province, proved to be impossible.

"As regards the eventual restoration of the province to China, it is manifest that such intention can only be carried out when the normal situation is completely restored to the empire and the central government established at the capital independent and strong enough to guarantee Russia against a recurrence of the events of last year."

CABINET HEARS MANY REPORTS.

Associated Press Dispatches by The Tribune's Special Leased Wire. WASHINGTON, April 5.—The President today made the first announcement that Mr. Knox had accepted the post of Attorney General, to the Cabinet. His commission, which is dated today, was signed immediately after the President had informed his advisers of their new colleague's acceptance.

Secretary Hay submitted to the Cabinet the Russian communication referred to in a previous dispatch, and the news was accepted as an indication that the tension in the far East would be relieved.

The major portion of the time of the meeting was consumed in a discussion of the Civil Service in the various departments. This matter came up upon the President's conference with members of the Civil Service League yesterday. Each of the Cabinet officers gave his experience with the law.

There was an informal discussion of the report that Governor Allen of Porto Rico is to resign upon his arrival here, but no one appeared to have any definite information as to Governor Allen's intentions, although the opinion seemed to be that his resignation would cause no surprise.

JUSTICES AND CONSTABLES WILL RECEIVE SALARIES.

The new law passed by the Legislature relative to salaries of Justices of the Peace and Constables will act as a great money saver for this county. Its effects are already beginning to be felt. Constables are receiving the appointments of many of the deputies employed while the offices were administered upon a fee basis. Constable P. L. White yesterday received the appointments of six of his deputies.

Under the new law each township is entitled to two Constables, their salaries being as follows: Oakland township, \$30 a month; Brooklyn township, \$30; Eden township, \$30; Murray township, \$30; Washington township, \$30.

Under the fee bill Constables in Oakland township received about \$100 a month. Brooklyn township about \$25, Eden township about \$25, Murray township about \$15, Washington township about \$10, the total aggregating about \$175 a month.

A saving is also effected in the Justices' courts. Under the new law Justices of the Peace and Constables will receive \$20 a month, and Justice of the Peace of Brooklyn township will receive \$15. The fees collected in criminal cases must now be paid to the Justices of the Peace and Constables. The effect of the salary system is already felt in the decrease of the number of men arrested as vagrants. Heretofore Constables carried "John Doe" vagrants and sent them to the county jail. Now they make as many arrests as possible, a fee being attached to each arrest. It then costs the county \$20 a month to keep the prisoners. At times there have been between thirty-five and forty vagrants in the County Jail at one time.

WOMAN BANKRUPT.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, April 5.—Ellen Mulholland of Long Beach, N. J., conducting business as a builder and real estate operator in this city, filed a petition in bankruptcy today with liabilities of \$208,122; no assets.

After his ordination the Rev. and Mrs. Brink will leave for the Philippines, where he is accepted a position under the Government as supervisor of the schools in one of the most populated islands.

LABOR WILL HOLD A RALLY TONIGHT.

Organized labor will hold a big rally in Blue Hall, corner of Twelfth and Webster streets, this evening. On this occasion General Organized Labor will be the principal speaker, to be followed by Captain John W. Wilkinson, ex-State Senator of Massachusetts. The Rev. Benjamin Fay Mills of the First Unitarian church will preside, and he will also discuss the subject of organized labor. There will be a parade in Broadway this evening.

BURGLAR IN ST. PAUL'S WANTED SILVER SERVICE.

Later investigation into the mysterious removal of a window pane from the side of St. Paul's Episcopal church has disclosed the motive of the intruder to have been robbery. In looking over the massive communion service Rev. Ritchie found medals that were not there when he last saw the service. The medals had been made by a tile, and Mr. Ritchie is now satisfied that the burglar visited the church with the idea in view of carrying away the communion service set, but finding the subject to be plated, had left it.

OAKLAND'S COFFEE CLUB PROVES SUCCESSFUL INSTITUTION.

The success of the Coffee Club during its first month has exceeded the fondest hopes of its directors. The directors now plan to enlarge the scope of the institution, and a building alley is to be made one of the features. The place is conducted by the W. C. T. U.

CORONER AND SHORTHAND MAN NARROWLY ESCAPED.

While driving along at a high rate of speed along the county road between Contra Costa and Hayward, yesterday, Coroner H. B. Mehrmann and Harry W. Puleifer, stenographer, narrowly escaped serious and perhaps fatal injury. They were on their way to an inquest at Alvarado and were accompanied by a Chinese interpreter. The harness broke and the driver, alighted to repair it, handling the reins to the Chinese. Presently the Chinaman pulled on the reins and backed the rig down over a grade and into a creek seven feet deep. Mehrmann and Puleifer were thrown out and barely escaped the horse falling on them.

On this occasion he has distributed six dozen straw hats to each of the following named institutions: Old Ladies' Home, Sacred Heart School, West Oakland Home, West Oakland Free Kindergarten, Rescue Home, Fruitvale and Fruitvale Kindergarten. This means 361 persons will receive a hat gratis with Mr. Schreinass' compliments, a magnanimous act that is worthy of notice.

Finding a Fortune and Founding a Fortune.

A TRAMP'S LUCK AND AN EN- ERGETIC MAN'S PURPOSE.

It is perhaps true as told that a tramp, searching a garbage barrel for scraps of refuse food, found a fortune in good United States currency. Such a thing may happen.

But the workman who gives up a steady occupation however unremunerative to hunt garbage barrels for a fortune will surely degenerate to a tramp. There is a difference between finding a

fortune and founding a fortune. Few men chance upon a fortune. The fortunes we know about are not found but founded on a certain substantial basis. The nature of that basis of fortune is well set forth in the advice given by a successful merchant to a young man who asked, "What is the first requisite to making a fortune?" "The first requisite to making a fortune," said the rich man, "is health." "The idea that fortunes are made suggests toil and industry and skill. Nothing can be made without these. But a weak man cannot toil, and industry is incompatible with ill-health. If you want to be strong remember that all physical strength comes from food and that the amount of strength extracted from food depends upon the ability of the stomach to digest food and assimilate its nutrition. The man who takes care of his digestion is, in general, taking care of every other organ of his body."

SUCCESS AND THE STOMACH.

The merchant who gave the above opinion may not have been much of a physician but he was a good deal of a philosopher. He had seen men with success almost within the grasp, break down because of "stomach trouble." He had theorized the saying that the "weakest must go to the wall" into the saying that "the man with the weakest stomach must go to the wall," because no man is stronger than his stomach. The man who will learn this lesson of success has taken a great stride to his goal. Health is the first prerequisite of success and health in general means a sound stomach and a good digestion.

Look at the logic of the matter. Food is a man's life, his strength. Physical life is sustained by food. But the fact that a thing can be eaten doesn't make it food. Many a physician practicing in the tenements of a city says of failing men or women, "What they need is nourishing food." What they need is something to go to the wall, because no man is stronger than his stomach. Anything to satisfy hunger. But this is not food in any true sense because it contains no nutrition. All food must be considered in relation to its nutritive

value. When the stomach and the allied organs of digestion and nutrition are diseased the nutrition contained in food is imperfectly extracted and the body fails of nutrition adequate to its needs. The shipwrecked sailor living upon scraps in which there is no nutrition is on a level with the man who eats abundant nutritious food but whose stomach with its allied organs is diseased and therefore fails to extract from the food eaten the nutrition which is the body's need.

SOUND STOMACH, SOUND MAN.

That is almost an axiom. The man with a sound stomach and good digestion will in ordinary be a sound man, because the nutrition of food is the life and strength of heart, lungs, liver, kidneys and every organ of the body.

The first need of a weak man is to look after his stomach and his digestion. There is the common seat of physical weakness. How weak men have been made strong; strong of heart, liver, lungs, kidneys and every organ by being made strong of stomach and strong of digestion has been told thousands of times by those who have used Dr. Pierce's Golden Medical Discovery.

"I am glad to tell you of the great benefit I have received from the use of Dr. Pierce's Golden Medical Discovery," writes Mr. G. B. Bird, of Byrnsdale, Putnam Co., N. Y. "It cured me of a very bad case of indigestion associated with torpid liver. Before I began the use of 'Golden Medical Discovery' I had no appetite; could not sleep nor work but very little. The stomach ached, and I did not agree with me, bowels constipated, and life was a misery to me. I wrote to Dr. Pierce giving the symptoms, and asked for advice.

You advised me to try the 'Golden Medical Discovery' and after taking four bottles I felt so well that I went to work, but soon got worse, so I again began the use of it and used it about eight weeks longer, when I was permanently cured. I took in all twelve bottles of the 'Discovery' and soothed my liver's pleasant effects in connection with the 'Discovery.'"

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures through the stomach diseases which seem remote from that organ but which have their origin in disease of the stomach, such as indigestion, flatulence, etc.

There is no alcohol in "Golden Medical Discovery" and it is entirely free from opium, cocaine and other narcotics.

Persons suffering from disease in chronic form are invited to consult Dr. Pierce by letter, free. All letters held as strictly private and secrecy guaranteed. Address Dr. R. V. Pierce, Buffalo, N. Y.

There is no similar offer of free consultation by letter or free medical advice which has behind it an institution such as the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

There is no similar offer of free medical advice which has behind it a physician of Dr. Pierce's skill and success. In a little more than thirty years Dr. Pierce, as chief consulting physician to the Invalids' Hotel and Surgical Institute, assisted by his staff of nearly a score of physicians, has treated and cured hundreds of thousands of men and women.

IS YOUR LIFE WORTH 21 CENTS?

It may often happen that the issue of life or death depends upon knowing what to do and how to do it in a crisis. Dr. Pierce's Common Sense Medical Adviser is full of helpful information, which may at any time mean the saving of a life. This great work containing 1,000 large pages is sent free on receipt of stamp to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume or only 21 stamps for the book in paper-covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

DAUGHTER OBJECTS TO FATHER'S ACCOUNT.

Miss Elizabeth Hamilton has not an objection to the fact that her father, W. J. Hamilton, has been making an account of her earnings during the last year. The account shows that she was invested in October of 1899 and last November of this year.

Miss Hamilton claims that the sum of the account is not a true statement of her earnings. She also objects on the ground that her father was mingled with those of her father's investments one of \$3,000 and to her mother for her support. She also objects to the fact that her father has not paid her the money which she is entitled to under the account.

Miss Hamilton further claims that she was satisfied with a settlement of \$500 worth of furniture on her in 1897. She asks that her father be compelled to render an account.

FRIDAY APRIL 5, 1901

THE SPRING ELECTIONS.
Honesty is about as easy in the spring elections in Kansas, Illinois, Missouri, Colorado and Wyoming, for although the Democrats carried off a number of the local prizes, the Republican victories were just as pronounced at other points. But little political significance can be attached to the results, anyhow, for in almost every instance the issue turned upon distinctive local movements, such as temperance, law and order and improvements, the candidates and party platforms being subordinated to the particular principles in which the various elements of municipal life were interested.

About the only place where politics really cut a figure was St. Louis, and there, it is interesting to note, another crushing defeat was administered to Bryan and all that he represents. The straight Democratic nominee had been an ardent adherent of the gold wing of the party during the last two national campaigns, and for that reason Bryan with his paper, the *Commonwealth*, and ex-Governor Altgeld of Illinois, undertook his defeat. They fought him both in the press and from the stump, and surely nothing is more significant of where Bryan stands today than that despite the fact that St. Louis was one of the great centers of the free silver movement, the individual thus opposed was elected by one of the largest pluralities ever given in the city.

Another interesting feature of the elections is the rebuke given to Mrs. Nathan in the very sections where her crusade was apparently the most effective. In Wichita, Kan., where she inaugurated her saloon-smashing operations, the temperance candidates were overwhelmingly defeated, while her results attended her ticket in many other parts of the State. This shows that the average American citizen disapproves of sensational and revolutionary methods of bringing about reform, for although wherever any of these agitators are in evidence plenty of followers can always be found for them, they only represent a very small element of the community. Mrs. Nathan is probably sincere enough, but no one of ripened judgment would countenance her methods, for to do so would be an endorsement of everything that lends law means, and we have had trouble enough during the past two years trying to cry down that sort of thing. Temperance is a worthy cause, but it is one that should be inseparably associated with peace, and not, therefore, capable of being properly attained by going to war to secure it.

STATE PROGRESS.
The rapid and phenomenal growth of towns and cities is a feature of California's development. In the exciting times of the mining era communities were collected in a week and often disappeared in as short a time, but of late years we have taken on a slower and more solid growth. We no longer crush and elbow each other in order to crowd our way to the front line in forming and settling up fresh residence and business centers, but nowadays the rule is that every new city has come to stay, irrespective of the particular enterprise that has brought it into existence. For example, suppose Roundburg, the latest California mining town of importance, should suddenly have its mineral resources shut off, those who have established themselves there would not have to move away, for the very occupation of a hitherto unsettled part of California brings about the development of new sources of wealth which furnish separate means of permanent revenue. The once flourishing mining camps of California are in most cases ten times more prosperous today than in the era of '49, for agriculturists have brought more abundant and more certain riches than the gold fields were capable of yielding.

Point Richmond furnishes an excellent illustration of what is being accomplished nowadays. Three years ago it was a lonely promontory jutting out into the bay of San Francisco, unincorporated and practically uninhabited. Today, as if by magic, this once isolated area has been transformed into a thriving and prosperous community of about 1,500 population, with stores, residences, schools and churches. In this particular instance there can, of course, be no question that the growth is not a mushroom one, owing to its occupancy by the Santa Fe, and the case is only cited to show upon what substantial lines California enterprise is now asserting itself. The State is growing fast, but none the less surely, for our future is no longer problematical. California's destiny as one of the greatest States of the Union is plain, and capital and enterprise are both willing to take the small risk that they run for the great rewards that may result.

Aguaquito says he is coming to the United States. If he is figuring on being entertained by his old friend Bryan he is likely to be badly fooled, for by taking the oath of allegiance the Filipino chief knocked the last remaining prop from beneath the Nebraskan's platform, virtually putting him out of business.

Frosts have been doing considerable damage to up-country vineyards during the past few nights. Grape juice doesn't mind ice under the conditions that produce a "cold small bottle" in a side room, but it is a different proposition altogether when nature is running affairs out in the open.

The American cup defender is to be called the Constitution. If there really is anything in a name the race is as good as over, for Johnny Bull tried to get away with that proposition once before, and his fingers are still sore where he burned them.

SCHWAB WILL GIVE UP PRESIDENCY.
Associated Press Dispatch to The Tribune.
NEW YORK, April 5.—The Times says: The headquarters of the United States Steel Corporation are to be situated in this city. President Schwab has secured a suite of apartments on the second floor of the Waldorf-Astoria and proposes to make New York his temporary home. A misunderstanding is that Mr. Schwab will not retain the presidency for an indefinite period. It is said that he needs a rest, as he shows the effects of his work in solving many difficult problems that have confronted him in the details of the organization. Just when Mr. Schwab will retire from the presidency is not predicted, but it is believed he will relinquish it within a year. Mr. Schwab would not discuss the matter last night.

Perhaps it is simply in retaliation that time so marks the face of the dissipated man, for how often has he tried to kill time.
Fred Punston must have concealed somewhere in his uniform a lucky star and the people will not be satisfied until they see it on his shoulder strap.
"I have noticed," said the Confused Philosopher, "that the man who won't let people back him down can always find some one to back him up."

THE CHAMBER OF SLEEP.
I have a castle of silence, flanked by a lofty keep
And across the drawbridge looms the lovely chamber of sleep;
Its walls are draped with legends woven in threads of gold,
Legends beloved in dreamland, in the tranquil days of old.
Here lies the princess sleeping in the palace, solemn and still,
And knight and countess slumber; even the noisy rill
That flowed by the ancient tower, has passed on its way to the sea,
And the deer are asleep in the forest, and the birds are asleep in the tree.
And I in my castle of silence, in my chamber of sleep lie down,
Like the far-off murmur of forests come the turbulent echoes of town,
And the wrangling tongues about me have now no power to keep
My soul from the solace exceeding the blessed Nirvana of sleep.
Lower the portcullis softly, sentries, placed on the wall;
Let the shadow of quiet and silence on all my palace fall;
Softly draw my curtains. *** Let the world labor and weep—
My soul is safe environed by the walls of my chamber of sleep.

CHINA GIVES UP VALUABLE ISLAND.
Associated Press Dispatch to The Tribune.
PEKING, April 5.—The Ministers think the Island of the Kuang Su concession just agreed upon extremely valuable, as the island can be controlled absolutely as far as sanitary and other measures are concerned, and will become largely a residential quarter for foreigners. It will be entirely under international control.
The Ministers and other foreigners consider the fortifications of the German legation excessive and believe it to be the reason for the Chinese court not returning to Peking. A deep and wide moat has been dug on two sides of the legation premises. The barracks on the new legation grounds are well under way, including those of the American legation.
The bodies of thirty-two United States soldiers, including the remains of Captain R. B. Faddock of the Sixth United States Cavalry, and Captain H. J. Riley of Battery F, Fifth United States Artillery, were shipped this morning to Taku, where they will be placed on board a vessel for transportation to the United States. The bodies were placed upon the train with imposing military ceremonies.

FLOODS FEARED IN THE POTOMAC.
Associated Press Dispatch to The Tribune.
HAGERSTOWN, Md., April 5.—This section of the Cumberland valley is well in with snow, which covers mountain ranges north and south to a depth of from three to five inches as a result of the recent storm. The rainfall was heavy, causing a sudden rise in the Potomac river and Annapolis and Chesapeake creeks. The Potomac is swollen about six feet and is still rising, with every indication of the stream getting wild and doing damage. The banks of the Chesapeake and Ohio canal are being watched at points where the river bounds the tow path. Other streams are nearly out of banks, but no damage is reported.
Reports from the famous South Mountain peach belt indicate that injury has been done to the early fruit by the freezing weather. The early buds had been forced almost open by the recent warm weather and the sudden change, with the temperature falling to freezing, came at such a time as to do considerable injury. Up to this time there was every prospect of a large crop of peaches this summer.

BRADLEY MARTIN MUST PAY TAXES.
Associated Press Dispatch to The Tribune.
NEW YORK, April 5.—The appellate division of the Supreme Court has handed down a decision affirming an order by Justice Andrews to compel Bradley Martin to pay taxes in this city. His personal property has been assessed at the sum of \$206,000 for the year 1899.
Bradley Martin claimed to have ceased to have a residence in this city and to have acquired a residence in Scotland prior to January 1, 1899. The decision is based upon the opinion of Justice Andrews in the court below. Justice Andrews says that the relator had paid taxes on personal property here in previous years and without protest in 1896. It appeared that he still retained his citizenship here and that there had been no change whatever in his habits of life since 1892.

FOUGHT WITH PISTOLS AND SWORDS.
Associated Press Dispatch to The Tribune.
NEW YORK, April 5.—A dispatch to the Herald from Nice says: A duel has taken place between Count Tarnowsky and Lieutenant-Colonel Tolstol. At first two shots were exchanged and then the combat continued with swords. Count Tarnowsky was wounded in the forearm.

BEAUTIFUL METEOR SEEN IN PERU.
Associated Press Dispatch to The Tribune.
LIMA, Peru, April 5.—Advices from Pimentel tell of the passage of a beautiful meteorite over that place on March 31. In appearance it was as large as a full moon. It passed northwesterly over the town and dropped into the Pacific ocean.

GOOD FRIDAY IN THE CHURCHES.
Impressive Services Were Held During the Day.

Today is Good Friday and the festival has been generally observed in Catholic and Episcopal churches with solemn and appropriate services.
At St. John's Episcopal Church there were services at 7 and 10:30 o'clock this morning, conducted by Rev. M. N. Ray. There was a service of three hours beginning at noon and continuing until 3 o'clock this afternoon. This evening services will be sung without musical accompaniment. A sermon will be delivered by Mr. Ray at 7:15 o'clock.
At St. Paul's, Trinity and the other Episcopal churches the usual Good Friday services were conducted by the respective pastors.
In the Catholic Church of St. Francis de Sales, this morning, there was the mass of the Pre-Sanctified, which was celebrated by Rev. T. McSwiney, who was assisted by Rev. Fathers Mull and Butler. There was no instrumental accompaniment to the singing, which was of what is known as plain chant. Instrumental music being eliminated from the services of the church by the rubrics, until Easter Sunday. After the Blessed Sacrament was removed from the repository, which was done in procession, in which clergy and acolytes took part, there was the service of the veneration of the Cross, in which clergy and laity joined. This evening the day of the cross will be commemorated and there will be a sermon. At St. Patrick's Church this morning the mass of the Pre-Sanctified was celebrated by Rev. J. B. McNally, Rev. P. Kieley assisting. This evening the day of the cross will be carried out and a sermon on the Passion of Christ will be delivered by Rev. J. B. McNally.
In the Church of the Sacred Heart, of which Rev. L. Sedra is pastor, and in the Church of St. Anthony, of which Rev. M. Gleason is pastor, and in the Church of the Immaculate Conception, of which Rev. M. King is pastor, the same services as those outlined in St. Patrick's and St. Francis took place.
In the synagogue of the First Hebrew Congregation this morning there was a continuation of the services of the Feast of the Passover, which were solemnly attended. They were conducted by Rabbi Friedlander. Later, the rabbi spoke before a large gathering in the synagogue of Beth Jacob, on Harrison street, the subject being, "What Shall We Do With Our Children?"

EVERETT BROWN IS HONORED.

Will Speak With the President of United States.

Everett Brown, who acted as chairman of the Republican City Central Committee during the last Municipal campaign, has been exceedingly honored by being selected to deliver one of the four graduate addresses which are to be delivered at the commencement day exercises at the University of California.

The honor is all the more appreciated because it was unsought and because it will be accompanied by the marked distinction of having the pleasure of speaking before an audience of distinguished people, among whom will be no less a person than the august President of the United States, William McKinley.

The appointment came in this way: President Wheeler of the University requested the students of the Hastings Law College of San Francisco, which is connected with the University, to select an orator to represent them in the closing exercises. The law students met and unanimously selected Mr. Brown for the place.

Mr. Brown is a graduate of the University of California and on commencement day he will receive his diploma as a graduate of the College of Law, which in all probability will be handed to him by President McKinley himself.

Mr. Brown is a logical thinker, an earnest and forcible speaker. His preference in this instance is a source of gratification to his many friends in this vicinity.

FINAL ACCOUNT OF HINDMAN ESTATE.

The trial of Manuel Corroia of Conden and Edward C. Williams, as executors of the estate of the late Edmund Hindman, shows \$38,574 received and \$3,722.89 expended, leaving a balance of \$34,851.11 on hand.

A petition has been filed to have the estate distributed to the heirs. The estate is valued at \$107,745.51. According to the terms of the will, the property was to be distributed to Mrs. Elizabeth Beach, Mrs. Harriet C. Monson, Miss Lottie Clark and Lucius V. Bierce Jr., niece and nephew of the deceased, in equal shares.

Mrs. Monson died prior to the death of the testator. She left a son, Harry Monson, who is heir to her interest. The interest of Roger Hindman was assigned to Miss Lottie Clark, Lucius V. Bierce Jr., and Mrs. Elizabeth Beach. Monson assigned to Darwin C. De Golia one-half of his interest.

Storor Hindman contested the will and codicil, but subsequently dismissed the contest. Monson contested the codicil, in which he was cut off, and the court declared that part of the instrument invalid.

The executors ask that the estate be distributed to the devisees according to the terms of the will and the assignments that have been made. They also ask to be allowed to retain \$5,000 which was assessed as a collateral inheritance tax. The tax is now being contested before the Supreme Court on the ground that the heirs are non-residents of this State. The money is to be retained pending a decision in the case.

ENROACHMENT ON PUBLIC PROPERTY.

City Engineer Turner and Street Superintendent Ott discovered yesterday what appears to be an enroachment upon public property.

The two officials were investigating the matter of grading and macadamizing First street from Washington to Castro, as petitioned for by the Southern Pacific Company and the Oakland Gas, Light and Heat Company. They found considerable difference in the property lines on the south side of the street. About sixty feet west of the west line of Clay street, First street, is 120 feet wide, and from that point to Washington street is 100 feet wide, while between Washington and Webster the width is but eighty feet. On the south side between Washington and Clay they found that buildings of the Pacific Lumber Company extend into the street, and the question arises whether such property is private or public.

Engineer Turner has decided to consult with the water front attorneys relative to the legal phase of the matter, and until the proper property lines are found the improvement of First street will be delayed.

New Commissioner.

Judge Ogden is considering the appointment of a commissioner in place of H. H. Shaw of Berkeley, who recently died in Arizona, to sell property in an estate in Cortez. Shaw died before he had completed the sale.

IMPROVED MIND.

The Food Grape-Nuts. A famous woman says, "I am so much in love with Grape-Nuts that I presume I often bore people telling them about the new food. You certainly will make an everlasting fortune from the sale of it. The article has become the best known cereal on the market."

It can hardly be called a cereal for rolled oats, but it is in the form of granules, ranging from the size of a pin head up to twice or three times as large as the common rolled wheat that size.

It is thoroughly cooked at the factory, and requires no preparation whatever, but can be served instantly with hot milk or hot cream to make a hot mush, or cold cream can be poured in the side of the saucer and a very delicious crisp food is the result. Not only is the taste fascinating, but the nutritive value of the food is very great, as shown by the improved condition, physically and mentally, of those who use it ten days or two weeks.

IRVINGTON
CHILD POISONED
BY ICE CREAM.

IRVINGTON, April 5.—Dexter
Whitely, the 4-year-old son of T.
D. Whitely, of 1215 Irving street, died
yesterday of cholera after eating
parents' ice cream. The child was
sick but a few hours and the phy-
sician who attended him at the phy-
sician's residence, Dr. J. H. Jones, re-
ported that the child died of cholera
after eating ice cream which he
had bought from a street vendor
yesterday afternoon. The mother
with him, and she died of the
cholera and she, too, was sick.

MELROSE WANTS
FIRE PROTECTION.

MELROSE, April 5.—At a meeting
of the Melrose Improvement Club held
last evening in the school house, E.
D. Lane made a vigorous speech urging
the citizens of Melrose to provide
an efficient fire department before and
more such losses as the burning of the
Vulcan Smelting Works Tuesday night
might occur.

Mr. Lane said that Melrose wanted a
more effective fire department than
that possessed by Fruitvale, where,
though several thousand dollars have
been spent in the building and equip-
ment of two engine houses, the ap-
paratus usually arrives only in time
to save the lot.

The meeting of the Improvement
Club was an interesting one. Presi-
dent T. C. Armstrong presided, and D.
M. Hagerty acted as secretary. Among
the others present were R. H. Roane,
E. D. Lane and Charles Harrison, who
participated in the discussion concern-
ing needed improvements.

In the near future a smoker and
banquet will be given by the club at
D. M. Hagerty's hotel on Fourteenth
street.

ELMHURST.
ELMHURST, April 5.—Charles
Becker of Fresno is the guest of Mr.
and Mrs. Hamilton.

Mr. Hamilton is visiting D. Fair-
banks.

Marjorie Hale of Berkeley, spent yester-
day with friends in Elmhurst.

Varsity Baseball.
BERKELEY, April 5.—On their own
campus California will meet the Stan-
ford nine in the first inter-collegiate
baseball game tomorrow afternoon at
3 o'clock. The general opinion expressed
concerning the contest is that Cali-
fornia should win by an easy margin.
Overall will pitch for the Varsity,
while Gardiner will hold down his po-
sition at first. Smith will catch.

Parker will pitch for the Cardinal,
and will be backed up by Ball behind
the bat.

The two teams will play in the fol-
lowing positions:
California—Kennedy, left field;
Smith, catcher; Overall, pitcher; Gar-
diner, first base; King, second base;
Brady, third base; Hunter, shortstop;
Kennedy, left field; Hamilton, center
field; McKenna, right field.

Stanford—Lowenthal, left field; Ball,
catcher; Parker, pitcher; Cowden,
first base; Misner, second base; Mur-
phy, third base; Edwards, shortstop;
Lowenthal, left field; Symonds, center
field; Bennett, right field.

Republican Rally.
BERKELEY, April 5.—The Repub-
licans of Berkeley held their second
meeting of the municipal campaign in
Sisterna Hall, West Berkeley, last
evening. A good sized crowd was in
attendance and all the candidates for
the town offices made speeches. E. C.
Marlowe, Chairman of the Republican
City Central Committee, presided dur-
ing the evening. A brass band was in
attendance and considerable enthusi-
asm was shown.

The election will be held on April 8.
There are now two parties in the field
the Republicans and the Municipal
League. There are also a number of
independent candidates who are rely-
ing for their votes chiefly upon the
temperance element of the town. Both
regular parties are quiet on the tem-
perance question, but it is quite likely
that the election will be fought out
on the old ground of saloons or no sa-
loons.

Children's Narrow Escape.
This morning, while attempting to get
across the track in front of an Alameda
street car, near the Twenty-third avenue
station, two small children narrowly es-
caped being run down.

The little girl, who is about 5 years of
age, saw the car coming and started to
run across the track, followed by her
brother, who is two years older. On
reaching the track the little girl hesi-
tated, then started again when the car
was only a short distance away. By this
time the brother reached the track and,
seeing his little sister by the dress,
dragged her away just as the car went
by.

The children, though badly frightened,
were in no way injured.

AN EASY WAY
To Keep Well.

It is easy to keep well if we would
only observe each day a few simple
rules of health.

The most important thing is to keep
the stomach right and to do this it is
not necessary to diet or to follow a
set rule or bill of fare. Such pamper-
ing simply makes a capricious ap-
petite and a feeling that certain fa-
vorite articles of food must be avoided.

Prof. Wilehold gives pretty good ad-
vice on this subject; he says: "I am
65 years old and have never had a se-
rious illness, and at the same time my
life has been largely an indoor one. I
early discovered that the way to keep
healthy was to keep a healthy stomach
not by eating bran crackers or dieting
of any sort; on the contrary, I always
eat what my appetite craves, but for
the past eight years I have made it a
daily practice to take one or two of
Stuart's Dyspepsia Tablets after each
meal and I attribute my robust health
for a man of my age to the regular
daily use of Stuart's Tablets."

"My physician first advised me to use
them because he said they were per-
fectly harmless and were not a secret
patent medicine, but contained only
the natural digestive, pepsines and
diastase, and after using them a few
weeks I have never ceased to thank
him for his advice."

I honestly believe the habit of taking
Stuart's Tablets after meals is the
real health habit, because their use
brings health to the sick and ail-
ing and preserves health to the well
and strong."

Men and women past fifty years of
age need a safe digestive after meals
to insure a perfect digestion and to
ward off disease, and the safest, best
known and most widely used is Stuart's
Dyspepsia Tablets.

They are found in every well regu-
lated household from Maine to Cali-
fornia and in Great Britain and Aus-
tralia are rapidly pushing their way
into popular favor.

All druggists sell Stuart's Dyspepsia
Tablets, full sized pills, at 50 cents
each, for a weak stomach a fifty cent
package will often do fifty dollars
worth of good.

quest of Trustee Crosby the Street Im-
provement Committee was granted fur-
ther time in which to report.

The matter of licensing restaurants that
sell liquor was laid over till the next
meeting.

the supervision of H. P. McCann of the
Central Hotel was given to the group of
actors by the delegate members of Thyra
Lodge, Society Danla, in Native Sons' Hall.
There was no session of the order this
afternoon. The delegates were driven
throughout the city and vicinity. This
evening the delegates will attend a regu-
lar meeting of Thyra Lodge, Society
Danla, in Old Play House Hall.

TALCOTT SEEKS TO
SELL SCHOOL SITE.

The memorial proceedings instituted
by J. T. Talcott against the Board of
Trustees of the Melrose School District to
compel the purchase of a school site from
him, have come to the morning session
of argument before Judge J. H. Jones.
The case was continued a week at the
request of Attorney C. B. Snook, who stated
that his law was so weakly by an in-
fluenced judge that he could not make the
argument.

TALCOTT SEEKS TO
SELL SCHOOL SITE.

The memorial proceedings instituted
by J. T. Talcott against the Board of
Trustees of the Melrose School District to
compel the purchase of a school site from
him, have come to the morning session
of argument before Judge J. H. Jones.
The case was continued a week at the
request of Attorney C. B. Snook, who stated
that his law was so weakly by an in-
fluenced judge that he could not make the
argument.

Children's Narrow Escape.
This morning, while attempting to get
across the track in front of an Alameda
street car, near the Twenty-third avenue
station, two small children narrowly es-
caped being run down.

The little girl, who is about 5 years of
age, saw the car coming and started to
run across the track, followed by her
brother, who is two years older. On
reaching the track the little girl hesi-
tated, then started again when the car
was only a short distance away. By this
time the brother reached the track and,
seeing his little sister by the dress,
dragged her away just as the car went
by.

The children, though badly frightened,
were in no way injured.

AN EASY WAY
To Keep Well.

It is easy to keep well if we would
only observe each day a few simple
rules of health.

The most important thing is to keep
the stomach right and to do this it is
not necessary to diet or to follow a
set rule or bill of fare. Such pamper-
ing simply makes a capricious ap-
petite and a feeling that certain fa-
vorite articles of food must be avoided.

Prof. Wilehold gives pretty good ad-
vice on this subject; he says: "I am
65 years old and have never had a se-
rious illness, and at the same time my
life has been largely an indoor one. I
early discovered that the way to keep
healthy was to keep a healthy stomach
not by eating bran crackers or dieting
of any sort; on the contrary, I always
eat what my appetite craves, but for
the past eight years I have made it a
daily practice to take one or two of
Stuart's Dyspepsia Tablets after each
meal and I attribute my robust health
for a man of my age to the regular
daily use of Stuart's Tablets."

"My physician first advised me to use
them because he said they were per-
fectly harmless and were not a secret
patent medicine, but contained only
the natural digestive, pepsines and
diastase, and after using them a few
weeks I have never ceased to thank
him for his advice."

I honestly believe the habit of taking
Stuart's Tablets after meals is the
real health habit, because their use
brings health to the sick and ail-
ing and preserves health to the well
and strong."

Men and women past fifty years of
age need a safe digestive after meals
to insure a perfect digestion and to
ward off disease, and the safest, best
known and most widely used is Stuart's
Dyspepsia Tablets.

They are found in every well regu-
lated household from Maine to Cali-
fornia and in Great Britain and Aus-
tralia are rapidly pushing their way
into popular favor.
